Trivia

- Swanpaw was a white tom with blue-gray ears and tail and yellow eyes

- Heavyfennel is a pure white tom with hazel eyes

- Beecheel and Myrtlenectar were Swanpaw's parents

- If it wasn't clear enough, Heavyfennel killed the cats who would go to the lake

- Beecheel's suffix and prefix were chosen for their meaning but because of that his name makes no sense, it's my fault lmao

- If Swanpaw hadn't died, his warrior name would probably have been Swanflutter

- Alderfall never talks to anyone ever since Ferretpaw was killed in front of him

- Swanpaw, along with all of Heavyfennel's victims, can't go to StarClan either because of guilt and regrets or because some of their family members are unable to move on

- I think that's pretty obvious, but Heavyfennel will go to the Dark Forest

- HorizonClan is a fairly new Clan, Newtstar is actually the first leader

- I might write some more about HorizonClan cause I really like the name so pass check on my account from time to time if you're interested 👉👈
